

Category: Polyclonal Antibodies **Cat. #** 1107NF-107M **Product Name:** Lysozyme (Muramidase) - Prediluted

Description:
Polyclonal Antibody Rabbit Anti-Lysozyme

Immunogen:
Human lysozyme.

Application:
This antibody is prediluted for Immunohistochemistry use.

Recommended Positive Control:
Human Liver, Tonsil, Spleen

Presentation:
Partially purified rabbit gammaglobulins prediluted in Primary Antibody Diluting Buffer pH 7.6 and quality controlled using formalin-fixed paraffin-embedded human liver tissue sections.

Aliquoting Instructions:
Not applicable

Staining Procedure:
The prediluted antibody can be used on frozen cryostat sections as well as formalin-fixed paraffin-embedded tissue sections. For paraffinembedded tissue sections, we recommend an incubation time and temperature of 30 minutes at 37°C for this antibody, when used in conjunction with an immunoperoxidase staining kit. *Prolonged fixation in buffered formalin can destroy the epitope.

Specificity:
Lysozyme hydrolyzes certain glycosidic linkages of polysaccharides found in the cell walls of some bacteria. This enzyme is found in macrophages and in neutrophil granulocytes.

Storage:
Refrigerate at 4°C. Do not freeze.

Size: 5 ml
Host: Rabbit
Form: Prediluted
Units On Hand: YES

For Research Use Only
