## CERTIFICATE OF ANALYSIS

Important Note: Centrifuge before opening to ensure complete recovery of vial contents.

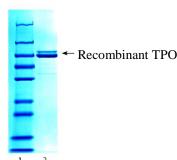

Catalog #: A01309H Lot #: 16J29217

**Description:** Human TPO, Recombinant

Thyroid Peroxidase (TPO) (a.a. 19-846), Recombinant

Recombinant soluble extracellular domain of human thyroid peroxidase (amino acids 19-846). Does not contain a fusion partner. Molecular weight is 91,981 Da. Immunoreactive in ELISA with human anti-TPO

autoantibodies.

## SDS-PAGE of recombinant human TPO expressed in insect cells, reducing conditions.

Lane 1: Molecular Weight Standards (250, 130, 100, 70, 55,

35, 25, 15 and 10 kDa)

Lane 2: Human Recombinant TPO, 1 µg Gel staining: Coomassie Brilliant Blue G-250

The electrophoretic heterogeneity of TPO is apparently caused

by differential glycosylation of the protein.

**Source:** Recombinant protein expressed in insect cells.

**Format:** Affinity Purified, Lyophilized

Reconstitute with deionized water.

**Purification:** > 95% pure (SDS-PAGE). Affinity purification using a monoclonal antibody and ion exchange

chromatography.

Concentration: Lyophilized: 0.95 mg/mL

**Buffer:** Lyophilized from 20 mM Tris-HCl, pH 8.0 containing 250 mM Sodium Chloride, 0.1 mM Potassium Iodide

and 5% D-Mannitol.

**Preservative:** None

**Applications:** Suitable for use in ELISA and Western Blot. Each laboratory should determine an optimum working titer

for use in its particular application. Other applications have not been tested but use in such assays should

not necessarily be excluded.

**Storage:** Store lyophilized product at -20°C. After reconstitution, aliquot and store at -70°C. Avoid multiple

freeze/thaw cycles.

**Inactivation:** Not Applicable

**Safety Note(s):** Refer to the appropriate Safety Data Sheet (SDS) for additional information.
