## Mus musculus CD302 cDNA Clone

Catalog Number: MG50706-M

#### **General Information**

Gene: CD302 antigen

Official Symbol: **CD302** 

Synonym: AI159627, 1110055L24Rik, Cd302

Source: Mus musculus

cDNA Size: 660

RefSeq: NM\_025422.3

**Description** 

Lot: Please refer to the label on the tube

**Sequence Description:** 

Identical with the Gene Bank Ref. ID sequence.

Vector:

pMD19-T

Shipping carrier:

Each tube contains approximately 10 µg of lyophilized plasmid.

Storage:

The lyophilized plasmid can be stored at ambient temperature for three months.

**Quality control:** 

The plasmid is confirmed by full-length sequencing with primers in the sequencing primer list.

Sequencing primer list:

M13-47: 5' GCCAGGGTTTTCCCAGTCACGAC 3'

RV-M: 5' GAGCGGATAACAATTTCACACAGG 3'

Other M13 primers can also be used as sequencing primers.

### **Plasmid Resuspension protocol**

- 1. Centrifuge at  $5,000 \times g$  for 5 min.
- 2. Carefully open the tube and add 100 µl of sterile water to dissolve the DNA.
- 3.Close the tube and incubate for 10 minutes at room temperature.
- 4.Briefly vortex the tube and then do a quick spin to concentrate the liquid at the bottom. Speed is less than  $5000\times q$ .
- 5. Store the plasmid at  $-20 \,^{\circ}$ C.

### The plasmid is ready for:

- Restriction enzyme digestion
- PCR amplification
- E. coli transformation
- DNA sequencing

# E.coli strains for transformation (recommended but not limited)

Most commercially available competent cells are appropriate for the plasmid, e.g. TOP10, DH5 $\alpha$  and TOP10F'.

# Mus musculus CD302 cDNA Clone

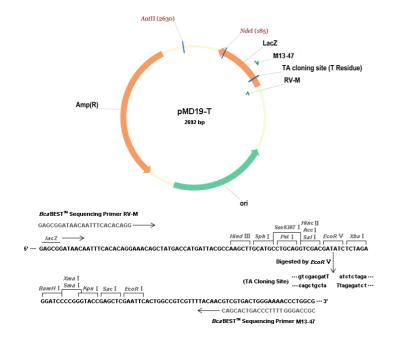

**Catalog Number:** MG50706-M

#### **Vector Information**

pMD19-T Vector is a high-efficiency TA cloning vector constructed from pUC19, of which multiple cloning sites as shown below. The pMD19-T Vector is 2.6kb in size and contains the amplicin resistance gene for selection. The coding sequence was inserted by TA cloning at site 431.

### Physical Map of pMD19-T (MCS destroyed):

Please refer to http://www.sinobiological.com/Vector-pMD19-T-a-155.html for the vector sequence.
