

Rho Guanine Nucleotide Exchange Factor 5 (ARHGEF5) Antibody

Catalogue No.: abx003105

Western blot analysis of extracts of various cell lines, using ARHGEF5 antibody (abx003105) at 1:3000 dilution.

ARHGEF5 Antibody is a Rabbit Polyclonal antibody against ARHGEF5. Rho GTPases play a fundamental role in numerous cellular processes initiated by extracellular stimuli that work through G protein coupled receptors. The encoded protein may form a complex with G proteins and stimulate Rho-dependent signals. This protein may be involved in the control of cytoskeletal organization.
