Telethonin (TCAP) Antibody

Catalogue No.:abx005189

Western blot analysis of extracts of various cell lines, using TCAP antibody (abx005189) at 1/1000 dilution.

TCAP Antibody is a Rabbit Polyclonal antibody against TCAP. Sarcomere assembly is regulated by the muscle protein titin. Titin is a giant elastic protein with kinase activity that extends half the length of a sarcomere. It serves as a scaffold to which myofibrils and other muscle related proteins are attached. This gene encodes a protein found in striated and cardiac muscle that binds to the titin Z1-Z2 domains and is a substrate of titin kinase, interactions thought to be critical to sarcomere assembly. Mutations in this gene are associated with limb-girdle muscular dystrophy type 2G.
