

Treponema pallidum TMP Protein

Catalogue No.: abx060676

Treponema pallidum TMP Protein (Recombinant) is a infectious disease antigen or toxin.

Target:	Treponema pallidum TMP
Origin:	Protozoan
Host:	E. coli
Tested Applications:	ELISA
Purification:	Purified from E. coli
Form:	Liquid
Conjugation:	Unconjugated
Storage:	Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.
Expression:	Recombinant
Buffer:	Buffer contains no preservative.
Directions for use:	Centrifuge before opening to ensure complete recovery of vial contents.
Note:	This product is for research use only.
