EBV Protein

Catalogue No.: abx069822

EBV Protein is a Protein produced in P3H3. Epstein Barr Virus (EBV) Antigen. It is an infectious disease antigen or toxin. This protein is from P3H3 Cells.

Target: EBV

Origin: Virus

Host: Human

Tested Applications: ELISA

Purification: Chronically infected cells were harvested by centrifugation and disrupted by sonication and cell debris was removed by centrifugation.

Form: Liquid

Conjugation: Unconjugated

Storage: Aliquot and store at -70 °C. Avoid repeated freeze/thaw cycles.

Buffer: Buffer contains no preservative.

Directions for use: Centrifuge before opening to ensure complete recovery of vial contents.

Note: This product is for research use only. This product is shipped with dry ice.
