Blue Chemically Competent Cell (TetR)

Catalogue No.: abx098068

Blue Chemically Competent Cell is specifically designed for chemical transformation of DNA. It permits a transformation efficiency of over 10⁸ cfu/μg DNA. The competent cell is resistant to tetracycline (TetR).

Target: Blue Chemically Competent Cell (TetR)

Storage: Store at -20°C. Stable for 12 months from date of receipt.

Note: This product is for research use only. This product is shipped with dry ice.
