

Human Retinoblastoma-Like Protein 2 (RBL2) ELISA Kit

Catalogue No.: abx382711

Human Retinoblastoma-like protein 2 ELISA Kit is an ELISA kit against Human Retinoblastoma-like protein 2 (RBL2).

Target:	Retinoblastoma-Like Protein 2 (RBL2)
Reactivity:	Human
Tested Applications:	ELISA
Recommended dilutions:	Optimal dilutions/concentrations should be determined by the end user.
Test Range:	0.312 ng/ml - 20 ng/ml
Sensitivity:	< 0.156 ng/ml
Validity:	The validity for this kit is 6 months.
Storage:	Upon receipt, store at 4 °C.
Stability:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Swiss Prot:	Q08999
GeneID:	5934
Gene Symbol:	RBL2
OMIM:	180203
HGNC:	9894

Ensembl:	ENSG00000103479
Standard Form:	Lyophilized
ELISA Detection:	Colorimetric
ELISA Type:	Sandwich
ELISA Data:	Quantitative
Sample Type:	Serum, plasma, tissue homogenates, cell culture supernatants and other biological fluids.

Note: This product is for research use only.
The range and sensitivity is subject to change. Please contact us for the latest product information.
For accurate results, sample concentrations must be diluted to mid-range of the kit. If you require a specific range, please contact us in advance or write your request in your order comments.
Please note that our ELISA and CLIA kits are optimised for detection of native samples, rather than recombinant proteins. We are unable to guarantee detection of recombinant proteins, as they may have different sequences or tertiary structures to the native protein.
