

Human ADP Ribosylation Factor Related Protein 1 (ARFRP1) ELISA Kit

Catalogue No.: abx385822

Human ADP Ribosylation Factor Related Protein 1 (ARFRP1) ELISA Kit is an ELISA kit against ADP Ribosylation Factor Related Protein 1 (ARFRP1).

Target:	ADP Ribosylation Factor Related Protein 1 (ARFRP1)
Reactivity:	Human
Tested Applications:	ELISA
Recommended dilutions:	Optimal dilutions/concentrations should be determined by the end user.
Test Range:	0.313 ng/ml - 20 ng/ml
Sensitivity:	< 0.19 ng/ml
Validity:	The validity for this kit is 6 months.
Storage:	Store at 2°C to 8°C upon receipt.
Stability:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Swiss Prot:	Q13795
GeneID:	10139
Gene Symbol:	ARFRP1
OMIM:	604699
HGNC:	662

Ensembl: ENSG00000101246

Standard Form: Lyophilized

ELISA Detection: Colorimetric

ELISA Type: Sandwich

ELISA Data: Quantitative

Note: This product is for research use only.
The range and sensitivity is subject to change. Please contact us for the latest product information.
For accurate results, sample concentrations must be diluted to mid-range of the kit. If you require a specific range, please contact us in advance or write your request in your order comments.
Please note that our ELISA and CLIA kits are optimised for detection of native samples, rather than recombinant proteins. We are unable to guarantee detection of recombinant proteins, as they may have different sequences or tertiary structures to the native protein.
