

Human Voltage-Dependent T-Type Calcium Channel Subunit Alpha-1G (CACNA1G) ELISA Kit

Catalogue No.: abx386242

Human Calcium Channel, Voltage Dependent, T-Type, Alpha 1G Subunit (CACNa1G) ELISA Kit is an ELISA kit against Calcium Channel, Voltage Dependent, T-Type, Alpha 1G Subunit (CACNa1G).

Target:	Calcium Channel, Voltage Dependent, T-Type, Alpha 1G Subunit (CACNa1G)
Reactivity:	Human
Tested Applications:	ELISA
Recommended dilutions:	Optimal dilutions/concentrations should be determined by the end user.
Test Range:	0.313 ng/ml - 20 ng/ml
Sensitivity:	< 0.19 ng/ml
Validity:	The validity for this kit is 6 months.
Storage:	Store at 2°C to 8°C upon receipt.
Stability:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Swiss Prot:	O43497
GeneID:	8913
Gene Symbol:	CACNA1G
OMIM:	604065

Abbexa Ltd, Innovation Centre, Cambridge Science Park, Cambridge, CB4 0EY, UK
Telephone: +44 (0) 1223 755950 - Fax: +44 (0) 1223 755951 - E-Mail: info@abbexa.com

HGNC: 1394

Ensembl: ENSG00000006283

Standard Form: Lyophilized

ELISA Detection: Colorimetric

ELISA Type: Sandwich

ELISA Data: Quantitative

Note: This product is for research use only.
The range and sensitivity is subject to change. Please contact us for the latest product information.
For accurate results, sample concentrations must be diluted to mid-range of the kit. If you require a specific range, please contact us in advance or write your request in your order comments.
Please note that our ELISA and CLIA kits are optimised for detection of native samples, rather than recombinant proteins. We are unable to guarantee detection of recombinant proteins, as they may have different sequences or tertiary structures to the native protein.
