

**ADNP Antibody (C-term)**  
**Affinity Purified Rabbit Polyclonal Antibody (Pab)**  
**Catalog # AP18350b**

**Specification**

**ADNP Antibody (C-term) - Product Information**

Application	<b>WB,E</b>
Primary Accession	<a href="#">O9H2P0</a>
Other Accession	<a href="#">O9Z103</a> , <a href="#">NP_852107.1</a>
Reactivity	<b>Human</b>
Host	<b>Rabbit</b>
Clonality	<b>Polyclonal</b>
Isotype	<b>Rabbit Ig</b>
Calculated MW	<b>123563</b>
Antigen Region	<b>831-860</b>

**ADNP Antibody (C-term) - Additional Information**

**Gene ID** 23394

**Other Names**

Activity-dependent neuroprotector homeobox protein, Activity-dependent neuroprotective protein, ADNP, ADNP1, KIAA0784

**Target/Specificity**

This ADNP antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 831-860 amino acids from the C-terminal region of human ADNP.

**Dilution**

WB~~1:1000

**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

Anti-ADNP Antibody (C-term) at 1:1000 dilution + MCF-7 whole cell lysate Lysates/proteins at 20 µg per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size : 124 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

**ADNP Antibody (C-term) - Background**

Vasoactive intestinal peptide is a neuroprotective factor that has a stimulatory effect on the growth of some tumor cells and an inhibitory effect on others. This gene encodes a protein that is upregulated by vasoactive intestinal peptide and may be involved in its stimulatory effect on certain tumor cells. The encoded protein contains one homeobox and nine zinc finger domains, suggesting that it functions as a transcription factor. This gene is also upregulated in normal proliferative tissues. Finally, the encoded protein may increase the viability of certain cell types through

ADNP Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

#### ADNP Antibody (C-term) - Protein Information

**Name** ADNP

**Synonyms** ADNP1, KIAA0784

#### Function

Potential transcription factor. May mediate some of the neuroprotective peptide VIP-associated effects involving normal growth and cancer proliferation.

#### Cellular Location

Nucleus

{ECO:0000255|PROSITE-ProRule:PRU00108 }.

#### Tissue Location

Widely expressed. Strong expression in heart, skeletal muscle, kidney and placenta. In brain, expression is stronger in the cerebellum and cortex regions. No expression detected in the colon. Strong increase of expression in colon and breast cancer tissues

modulation of p53 activity. Alternatively spliced transcript variants encoding the same protein have been described. [provided by RefSeq].
