

BIM Ab

| Cat.#: AF0121 Size: 100ul,200ul | Concn.: 1mg/ml Source: Rabbit | Mol.Wt.: 25kDa,22kDa Clonality: Polyclonal |
|------------------------------------|---|---|
| Application: | WB: 1:500~1:3000 IHC: 1:50~1:200 | |
| Reactivity: | Human,Mouse,Rat | |
| Purification: | The antiserum was purified by peptide affinity chromatography using SulfoLink™ Coupling Resin (Thermo Fisher Scientific). | |
| Specificity: | BIM Ab detects endogenous levels of total BIM. | |
| Immunogen: | A synthesized peptide derived from human BIM. | |
| Uniprot: | 043521 | |
| Description: | Bim a pro-apoptotic member of the BCL-2 protein family. Interacts with other members of the BCL-2 protein family, including BCL2, BCL2L1/BCL-X(L), and MCL1, and act as an apoptotic activator. Its expression can be induced by nerve growth factor (NGF), as well as by the forkhead transcription factor FKHR-L1, which suggests a role in neuronal and lymphocyte apoptosis. Transgenic studies in the mouse suggested that this protein functions as an essential initiator of the apoptosis in thymocyte-negative selection. Eight alternatively spliced transcript variants of this gene have been reported. | |
| Subcellular Location: | Mitochondrion and Endomembrane system. Associated with intracytoplasmic membranes. | |
| Tissue Specificity: | Isoform BimEL, isoform BimL and isoform BimS are the predominant isoforms and are widely expressed with tissue- specific variation. Isoform Bim-gamma is most abundantly expressed in small intestine and colon, and in lower levels in spleen, prostate, testis, heart, liver and kidney. | |
| Similarity: | The BH3 motif is required for interaction with Bcl-2 proteins and cytotoxicity.Belongs to the Bcl-2 family. | |
| Storage Condition and Buffer: | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.Store at -20 °C.Stable for 12 months from date of receipt. | |

Western blot analysis on COS7 cell lysate using BIM Ab, The lane on the left is treated with the antigen-specific peptide.

IHC analysis.

IMPORTANT: For western blot, incubate membrane with diluted primary Ab
in 5% w/v milk , 1X TBS, 0.1% Tween®20 at 4°C with gentle shaking,
overnight.

For Research Use Only. Not for use in diagnostic and therapeutic procedures. Not for resale without express authorization.
