

Phospho-Synuclein alpha (Tyr136) Ab

Cat.#: AF3287
Size: 100ul,200ul

Concn.: 1mg/ml
Source: Rabbit

Mol.Wt.: 18kDa
Clonality: Polyclonal

Application:	WB 1:500-1:2000
Reactivity:	Human,Mouse,Rat
Purification:	The Ab is from purified rabbit serum by affinity purification via sequential chromatography on phospho- and non-phospho-peptide affinity columns.
Specificity:	Phospho-Synuclein- alpha (Tyr136) Ab detects endogenous levels of Synuclein- alpha only when phosphorylated at Tyrosine 136.
Immunogen:	A synthesized peptide derived from human Synuclein- alpha around the phosphorylation site of Tyrosine 136.
Uniprot:	P37840
Description:	Alpha-synuclein is a member of the synuclein family, which also includes beta- and gamma-synuclein. Synucleins are abundantly expressed in the brain and alpha- and beta-synuclein inhibit phospholipase D2 selectively.
Subcellular Location:	Cytoplasm, cytosol. Membrane. Nucleus. Cell junction, synapse. Secreted. Membrane-bound in dopaminergic neurons.
Tissue Specificity:	Expressed principally in brain but is also expressed in low concentrations in all tissues examined except in liver. Concentrated in presynaptic nerve terminals.
Similarity:	The 'non A-beta component of Alzheimer disease amyloid plaque' domain (NAC domain) is involved in fibrils formation. The middle hydrophobic region forms the core of the filaments. The C-terminus may regulate aggregation and determine the diameter of the filaments.Belongs to the synuclein family.
Storage Condition and Buffer:	Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.Store at -20 °C.Stable for 12 months from date of receipt.

Western blot analysis of extracts from Hybridoma cells, using Phospho-Synuclein alpha (Tyr136) Ab. Lane 1 was treated with the blocking peptide.

Western blot analysis of Phospho-Synuclein alpha (Tyr136) expression in various lysates

Western blot analysis of Synuclein- alpha phosphorylation expression in Mouse brain tissue lysates, The lane on the left is treated with the antigen-specific peptide.

IMPORTANT: For western blot, incubate membrane with diluted primary Ab in 5% w/v milk, 1X TBS, 0.1% Tween@20 at 4°C with gentle shaking, overnight.

For Research Use Only. Not for use in diagnostic and therapeutic procedures. Not for resale without express authorization.
