Mouse Monoclonal anti human Integrin beta 3 (CD61)

ORDERING INFORMATION

Catalog No:	hAP-0777
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant human Integrin beta3 (CD61)
Ig Type:	Mouse IgG2a
Clone:	MM0777-34L34
Applications:	WB and FC

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with Recombinant human Integrin beta3 (also called CD61)).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes human Integrin beta 3 in direct ELISAs and WBs.

Applications:

- | | | | |
|-----------|-----------|------------|--------------------|
| 1. | WB | Yes | 1:1000-2000 |
| 2. | FC | Yes | |

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.
