Rat monoclonal anti mouse CCL-11/Eotaxin

ORDERING INFORMATION

Catalog Number: mAP-0168
Size: 100 µg
Storage: < -20° C
Immunogen: Mouse recombinant protein of CCL-11/Eotaxin
Ig Type: Rat IgG2
Clone: RM0168-7H5
Applications: WB, Neutralization, and IHC (Frozen)

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with mouse **recombinant protein of CCL-11/Eotaxin**).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein A/G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 200 µl sterile PBS (final concentration 500µg/ml). Reconstituted antibody can be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody detects mouse CCL-11/Eotaxin in western blotting and it cross reacts weakly with human CCL-11/Eotaxin.

Application(s)

- | | | | |
|----|-------------------------|------------|---------------------|
| 1. | Western blotting | Yes | (1:500-1000) |
| 2. | Neutralization | Yes | |
| 3. | IHC (Frozen) | Yes | (1:100-300) |

The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users!
