## Rat monoclonal anti-mouse TNFSF18

### ORDERING INFORMATION

**Catalog No:** mAP-0264  
**Size:** 100 µg  
**Storage:** <-20°C  
**Immunogen:** Mouse recombinant protein TNFSF18  
**Ig Type:** Rat IgG2  
**Clone:** RM0264-12D23  
**Applications:** ELISA & Neutralization

**Preparation:** This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with mouse **recombinant protein TNFSF18**).

**Formulation and Storage:** The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

**Reconstitution:** Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at <-20° for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

**Specificity:** This antibody recognizes mouse TNFSF18 by ELISA. Cross reactivity to other species has not been tested!

### *Applications:*

- |    |                |     |             |
|----|----------------|-----|-------------|
| 1. | ELISA          | Yes | 1:1000-2000 |
| 2. | Neutralization | Yes |             |

### For Research Use Only

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only
