

Anti-Cardiolipin polyclonal antibody (DPAB-CL019)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Specificity	Displays high IgG Anti-Cardiolipin activity (~85-120GPL). Displays high IgG Anti-Cardiolipin activity (~85-120GPL). Specificity is verified by a precipitin line of identity with the CDC-AF reference serum. Specificity is verified by using a standardized ELISA protocol. Demonstrates no reactivity at a dilution of 1:100 when tested against purified SSA, SSB, Sm, Scl-70, Sm/RNP and Jo-1 antigens in an ELISA system designed to detect all IgG subclasses.
Target	Human Cardiolipin
Immunogen	Cardiolipin antibody was raised against auto-antibody derived from donor human serum.
Isotype	IgG
Source/Host	Human
Species Reactivity	Human
Purification	Ammonium sulfate precipitation
Conjugate	Unconjugated
Applications	ELISA
Reconstitution	2,000 µl Sterile ddH ₂ O
Format	Lyophilized powder from PBS, 0.02% sodium azide.
Preservative	0.2% Sodium Azide
Storage	Store at -20°C lyophilized. Once reconstituted, aliquot and store at -20°C.
