

TTR Antibody

E220059

| | |
|------------------------------|--|
| Catalog Number | E220059-1, E220059-2 |
| Amount | 50µg/50µl, 100µg/100µl |
| Description | Mouse monoclonal IgG to TTR |
| GeneBank ID | NM_000371.1 |
| Immunogen | Recombinant fragment of Human TTR (N-terminus). |
| Reacts with | Hu |
| Tested applications | Recommended dilutions. ELISA: 1/5000 - 1/20000. WB: 1/100-1/2000. |
| Cellular localization | Extracellular |
| Relevance | This gene encodes transthyretin, one of the three prealbumins including alpha-1-antitrypsin, transthyretin and orosomucoid. Transthyretin is a carrier protein; it transports thyroid hormones in the plasma and cerebrospinal fluid, and also transports retinol (vitamin A) in the plasma. The protein consists of a tetramer of identical subunits. |
| Purity | Protein G-Sepharose affinity purified. |
| Storage buffer | Preservative: 0.02% Sodium Azide and 50% glycerol, 1% BSA, PBS, pH7.4. |
| Form | Liquid |
| Storage instructions | Aliquot and store at -20°C. Avoid repeated freeze / thaw cycles. |

TTR antibody (E220059) at 1/2000 dilution interacts with recombinant TTR protein with a DsbA tag. Predicted band size: 40KDa. Observed band size: 40KDa.
