

## UHRF1 Polyclonal Antibody

E90297

- Catalog Number:** E90297  
**Amount:** 100ul  
**Background:** UHRF1, also named as ICBP90, NP95 and RNF106, is a putative E3 ubiquitin-protein ligase. It may participate in methylation-dependent transcriptional regulation. UHRF1 binds to inverted 5'-CCAAT-3' box 2 in the TOP2A promoter, and activates TOP2A expression. It is important for G1/S transition and may be involved in DNA repair and chromosomal stability. UHRF1's ability to repress its direct target gene expression is dependent on PHD(UHRF1) binding to unmodified H3R2.  
**Species:** Rabbit  
**Isotype:** IgG  
**Storage/Stability:** Store at -20oC or -80oC. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.  
**Synonyms:** Np95; hNP95; ICBP90; RNF106; hUHRF1;  
**Immunogen:** Recombinant protein of human UHRF1  
**Purification:** Affinity purification  
**Reactivity:** H  
**Applications:** WB IF  
**Molecular Weight:** 91kDa  
**Swiss-Prot No. :** Q96T88  
**Gene ID:** 29128

**For Research Use Only**
