## **Product Benefits:**

ichorbio's Alemtuzumab Biosimilar - Research Grade is manufactured in a cGMP compliant facility. Our alemtuzumab biosimilar is for research use only (RUO).

## Size:

ichorbio's research grade alemtuzumab biosimilar is available in the following sizes: 5mg, 10mg, 20mg, 50mg, 100mg ichorbio regularly manufactures bulk multi-gram amounts of our alemtuzumab biosimilar - please contact us for pricing.

Target:
CD52
Clone:
n/a
Isotype:
IgG1 kappa
Other Names:
Campath-1 antigen, Cambridge pathology 1 antigen, HES
Host:
Humanized

Species Reactivity:
Human
Specificity:
Detects human CD52.
Purification Method:
This monoclonal antibody was purified using multi-step affinity chromatography methods such as Protein A or G depending on the species and isotype.
Background:
Alemtuzumab biosimilar is a recombinant DNA-derived humanized monoclonal antibody (Campath-1H) directed against the 21-28 kD cell surface glycoprotein, CD52, is an IgG1 kappa antibody with human variable framework and constant regions, and complementarity-determining regions from a murine (rat) monoclonal antibody. The alemtuzumab biosimilar has an approximate molecular weight of 150 kD and is produced in mammalian cell (Chinese hamster ovary) suspension culture in a medium.
Concentration:
1.0 - 5.0 mg/ml
Formulation:
Sterile, clear, colorless, preservative-free solution with a pH value of 6.8-7.4 and contains sodium chloride, disodium hydrogen phosphate, potassium chloride, potassium dihydrogen phosphate, polysorbate 80 and EDTA two sodium. BSA and Azide free.
Purity:
>95% by SDS-PAGE and HPLC
Endotoxin:
? 0.75 EU/mg as determined by the LAL method
Storage:
Alemtuzumab Biosimilar - Research Grade is stable for at least four (4) weeks when stored sterile at 2-8°C. For long term storage aseptically aliquot in working volumes without diluting and store at –80°C. Avoid Repeated Freeze Thaw Cycles.
Applications:
Functional Assays
Application Notes:

Each investigator should determine their own optimal working dilution for specific applications.

Use: ichorbio's alemtuzumab biosimilar is for research use only (RUO). Isotype Control:

Bulk Human IgG1 Isotype Control (IB1) [ICH2254]
