SIGIRR/TIR8 Antibody, Rabbit PAb, Antigen Affinity Purified

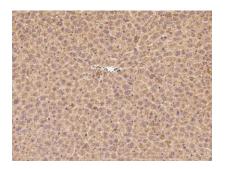

GENERAL INFORMATION	
Immunogen:	A synthetic peptide corresponding to the center region of the Mouse SIGIRR/TIR8
Preparation	Produced in rabbits immunized with a synthetic peptide corresponding to the center region of the Mouse SIGIRR/TIR8, and purified by antigen affinity chromatography.
Ig Type:	Rabbit IgG
Specificity:	Mouse, Rat
Formulation:	0.2 µm filtered solution in PBS
Storage:	This antibody can be stored at $2^{\circ}\text{C-8}^{\circ}\text{C}$ for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C . Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.
APPLICATIONS	
Applications:	IHC-P
RECOMMENDED CONCENTRATION	
IHC-P	IHC-P: 1:200-1:1000

Please Note: Optimal concentrations/dilutions should be determined by the end user.

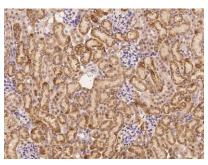

SIGIRR/TIR8 Antibody, Rabbit PAb, Antigen Affinity Purified

Catalog Number: 106749-T08

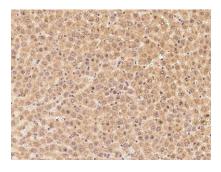

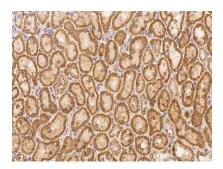

Immunochemical staining SIGIRR in mouse liver with rabbit polyclonal antibody at 1:300 dilution, formalin-fixed paraffin embedded sections.

Immunochemical staining SIGIRR in mouse kidney with rabbit polyclonal antibody at 1:300 dilution, formalin-fixed paraffin embedded sections.

Immunochemical staining SIGIRR in rat liver with rabbit polyclonal antibody at 1:300 dilution, formalin-fixed paraffin embedded sections.

Immunochemical staining SIGIRR in rat kidney with rabbit polyclonal antibody at 1:300 dilution, formalin-fixed paraffin embedded sections.
