# Human PSMA/FOLH1/GCPII Gene ORF cDNA clone expression plasmid, C-Flag tag

#### Catalog Number: HG15877-CF

# **General Information**

| Gene :            | folate<br>membrar | hydrolase<br>ne antigen) 1 | (prostate-specific             |
|-------------------|-------------------|----------------------------|--------------------------------|
| Official Symbol : | FOLH1             |                            |                                |
| Synonym :         | ,                 | ,                          | ; GCPII; mGCP;<br>e; PSM; PSMA |
| Source :          | Human             |                            |                                |
| cDNA Size:        | 2292bp            |                            |                                |
| RefSeq :          | NM_0044           | 476.1                      |                                |
| Plasmid:          | pCMV3-F           | FOLH1-Flag                 |                                |
|                   |                   |                            |                                |

# Description

Lot : Please refer to the label on the tube

### **Sequence Description :**

Identical with the Gene Bank Ref. ID sequence except for the point mutations: 333A/T,732T/C not causing the amino acid variation.

| Restriction site: | Kpnl + Xbal(6kb+2.29kb) |
|-------------------|-------------------------|
|-------------------|-------------------------|

Vector : pCMV3-C-FLAG

#### Quality control :

The plasmid is confirmed by full-length sequencing with primers in the sequencing primer list.

#### Sequencing primer list :

| pCMV3-F:     | 5' CAGGTGTCCACTCCCAGGTCCAAG 3' |
|--------------|--------------------------------|
| pcDNA3-R :   | 5' GGCAACTAGAAGGCACAGTCGAGG 3' |
| Or           |                                |
| Forward T7 : | 5' TAATACGACTCACTATAGGG 3'     |
| ReverseBGH : | 5' TAGAAGGCACAGTCGAGG 3'       |
|              |                                |

pCMV3-F and pcDNA3-R are designed by Sino Biological Inc. Customers can order the primer pair from any oligonucleotide supplier.

#### Shipping carrier :

Each tube contains approximately 10  $\mu g$  of lyophilized plasmid. **Storage :** 

The lyophilized plasmid can be stored at ambient temperature for three months.

# **Plasmid Resuspension protocol**

- 1. Centrifuge at  $5,000 \times g$  for 5 min.
- 2. Carefully open the tube and add 100  $\mu l$  of sterile water to

dissolve the DNA.

3. Close the tube and incubate for 10 minutes at room

temperature.

4. Briefly vortex the tube and then do a quick spin to concentrate

the liquid at the bottom. Speed is less than  $5000 \times g$ .

5. Store the plasmid at  $\ \mbox{-20}\ \ensuremath{\mathbb{C}}\ \mbox{.}$ 

### The plasmid is ready for:

- Restriction enzyme digestion
- PCR amplification
- E. coli transformation
- DNA sequencing

# *E.coli* strains for transformation (recommended but not limited)

Most commercially available competent cells are appropriate for the plasmid, e.g. TOP10, DH5 $\alpha$  and TOP10F<sup>'</sup>.</sup>

# Human PSMA/FOLH1/GCPII Gene ORF cDNA clone expression plasmid, C-Flag tag

Catalog Number: HG15877-CF

## **Vector Information**

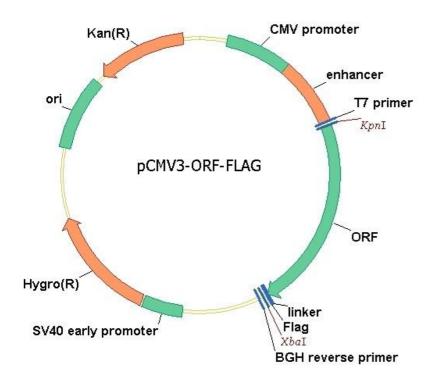

All of the pCMV vectors are designed for high-level stable and transient expression in mammalian hosts. High-level stable and non-replicative transient expression can be carried out in most mammalian cells. The vectors contain the following elements:

•Human enhanced cytomegalovirus immediate-early (CMV) promoter for high-level expression in a wide range of mammalian cells.

• Hygromycin resistance gene for selection of mammalian cell lines.

• A Kozak consensus sequence to enhance mammalian expression.

#### **Physical Map of Plasmid :**

| Vector Name                  | pCMV3-C-FLAG                     |
|------------------------------|----------------------------------|
| Vector Size                  | 6158bp                           |
| Vector Type                  | Mammalian Expression Vector      |
| Expression Method            | Constitutive, Stable / Transient |
| Promoter                     | CMV                              |
| Antibiotic Resistance        | Kanamycin                        |
| Selection In Mammalian Cells | Hygromycin                       |
| Protein Tag                  | FLAG                             |
