

# SAFETY DATA SHEET

Version 4.1 Revision Date April 15, 2016

## 1. IDENTIFICATION

**Product Identification** 

Product Name Custom ELISA Kit

Catalog Number EL-PRELIM

**Kit Components** 

Component	Size / Description
target protein Microplate (Item A)	96 wells (12 strips x 8 wells) coated with anti-Custom target protein.
Wash Buffer Concentrate (20X) (Item B)	25 ml of 20X concentrated solution.
Standard Protein (Item C)	2 vials of Custom target protein. 1 vial is enough to run each standard in duplicate.
Detection Antibody target protein (Item F)	2 vials of biotinylated anti-Custom target protein. Each vial is enough to assay half the microplate.
HRP-Streptavidin Concentrate (Item G)	200 μl X concentrated HRP-conjugated streptavidin.
TMB One-Step Substrate Reagent (Item H)	12 ml of 3,3,5,5'-tetramethylbenzidine (TMB) in buffer solution.
Stop Solution (Item I)	8 ml of 0.2 M sulfuric acid.
Assay Diluent(s)	Diluents for samples, standard and HRP-Streptavidin

### **Usage**

This product is furnished for LABORATORY RESEARCH USE ONLY. Not for diagnostic or therapeutic use.

**Supplier Identification** 

Company RayBiotech, Inc.

3607 Parkway Lane, Suite 100

Norcross, GA 30092

USA

Telephone 1-888-494-8555 (Toll Free); 770-729-2992

Fax 770-206-2393

Website www.RayBiotech.com
Email info@raybiotech.com

**Emergency Telephone Number** 

Emergency Phone # 1-888-494-8555

### 2. HAZARDS IDENTIFICATION

## **Hazardous Ingredients**

1. Stop Solution contains Sulfuric Acid

# **OSHA/HCS** status

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

### Classification of the substance or mixture

Sulfuric Acid (Stop Solution): ACUTE TOXICITY (inhalation)

### **GHS Label Elements**

Hazard Pictograms

Signal Word Warning

Hazard Statements Sulfuric Acid (Stop Solution): Harmful if inhaled.

Prevention Use only outdoors or in a well-ventiliated area. Avoid breathing vapor.

Response IF INHALED: Go to fresh air and rest in a position comfortable for breathing.

Call a POISON CENTER or physician you feel unwell.

Storage Not applicable.

Disposal Not applicable.

### Hazards not otherwise classified

None known.

### 3 COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture Item A is substance. All other items are mixture.

Other means of identification 

Not available

**CAS Numbers/other identifiers** 

Ingredient Name%CAS NumberSulfuric Acid1-37664-93-9

Any percentage shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

### 4. FIRST-AID MEASURES

## **Description of Necessary First Aid Measures**

Eye Contact	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.
Skin Contact	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing and clean shoes before reuse.
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Ingestion	Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## **Potential Acute Health Effects**

Eye Contact No known significant effects or critical hazards.

Skin Contact No known significant effects or critical hazards

Inhalation Sulfuric Acid (Stop Solution): Harmful if inhaled.

Ingestion No known significant effects or critical hazards

## **Over-Exposure Signs/Symptoms**

No specific data.

## **Notes to Physician**

Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

## **Specific Treatments**

No specific treatment

### **Protection of First-Aiders**

No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

#### 5. **FIRE FIGHTING MEASURES**

Use an extiguishing agent suitable for the surrounding fire, such as water **Extinguishing Media** 

spray, carbon dioxide, dry chemical power or appropriate foam. Prevent

contact with skin and eyes.

In a fire or if heated, a pressure increase will occur and the component Chemical Hazards from Fire

containers may burst.

#### **ACCIDENTAL RELEASE MEASURES** 6.

## Personal Precautions, Protective Equipment and Emergency Procedures

For Non-Emergency Personnel	No action shall be taken involving any personal risk or without suitable training.  Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist.  Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For Emergency Responders	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For Non-Emergency Personnel" above.
Environmental Precautions	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Protective Equipment	Wear respirator, chemical safety goggles, rubber boots and rubber gloves.

## Methods and Materials for Containment and Cleaning Up

Small Spill	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large Spill	Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

#### 7. STORAGE AND HANDLING

## **Storage**

May be stored for up to 6 months at 2° to 8°C from the date of shipment. Opened Microplate Wells or reagentsmay be store for up to 1 month at 2° to 8°C. Return unused wells to the pouch containing desiccant pack, reseal along entire edge. Reconstituted standard can be stored at -80°C for up to 1 week. Note: the kit can be used within one year if the whole kit is stored at -20°C. Avoid repeated freeze-thaw cycles.

## Handling

Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. Keep away from incompatible materials (see Section 10) and food and drink.

#### **EXPOSURE CONTROLS/PERSONAL PROTECTION** 8.

### Permissible Exposure Limits (PELs)

Substance	CAS No.	Regulatory Limits		Recommended Limits	
		OSHA PEL	Cal/OSHA PEL	NIOSH REL	ACGIH
		mg/m3	8-hour TWA (ST) STEL (C) Ceiling	Up to 10-hour TWA (ST) STEL (C) Ceiling	8-hour TWA (ST) STEL (C) Ceiling
Sulfuric acid	7664-93-9	1	0.1 mg/m3 (ST) 3 mg/m3	11 mg/m3 1	0.2 mg/m3 (Thor.)

## **Appropriate Engineering Controls**

Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

## **Protective Equipment**

Wear suitable protective clothing, including gloves, safety glasses, dust mask, and a laboratory coat.

### **Special Precautions**

Not for human or drug use. Not for household use.

#### PHYSICAL AND CHEMICAL PROPERTIES 9.

Appearance	Clear, colorless
Odor	Odorless
Physical State	Liquid
рН	N/A
Boiling Point	N/A
Melting Point	N/A
Freezing Point	N/A
Vapor Pressure	N/A
Vapor Density	N/A
Specific Gravity	N/A
Evaporation Rate	N/A
Solubility in Water	N/A
Odor Threshold	N/A
Coefficient of Water/Oil Distribution	N/A

#### 10. STABILITY AND REACTIVITY

**Chemical Stability** Stable under normal handling procedures.

Under normal conditions of storage and use, hazardous reactions will not Hazardous Reactions

occur.

#### TOXICOLOGICAL INFORMATION 11.

**Acute toxicity** 

Ingredient Name	Result	Species	Dose	Exposure
Sulfuric Acid	LC50 Inhalation Gas LD50 Oral		347 ppm 2140 mg/kg	1 hour -

### Irritation/Corrosion

Ingredient Name	Result	Species	Exposure	Observation
Sulfuric Acid	Eyes - Severe irritant Eyes - Severe irritant	li Kannit — I	250 Micrograms 0.5 minutes 5 milligrams	-

Sensitization Not Available

Mutagenicity Not available

Classification

Ingredient Name OSHA IARC NTP

Sulfuric Acid + 1 Known to be a human carcinogen.

Reproductive Toxicity Not Available

Specific target organ toxicity

(single exposure)

Not available

Specific target organ toxicity

(repeated exposure)

Aspiration hazard

Not available

Not available

**Likely routes of exposure** Routes of entry anticipated: Oral, Dermal, Inhalation.

Potential acute health effects

Eye contactNo known significant effects or critical hazards.InhalationSulfuric Acid (Stop Solution): Harmful if inhaled.IngestionNo known significant effects or critical hazards.Skin ContactNo known significant effects or critical hazards

12. ECOLOGICAL INFORMATION

EcotoxicityNo data availablePersistence and degradabilityNo data availableBioaccumulation/accumulationNo data availableMobility in environmental mediaNo data available

Other hazardous effects May be harmful to the environment, particularly aquatic organisms.

13. DISPOSAL CONSIDERATIONS

Disposal should be in accordance with applicable national, state, and local laws and regulations. Local regulations may be more stringent than national or state requirements. Verify local and state regulations before discharging into public sewers or landfills. Do not dump into any body of water. Contact a licensed professional waste disposal service for appropriate methods of

disposal.

14. TRANSPORT INFORMATION

**Disposal methods** 

DOTIATANot dangerous goods.Not dangerous goods.

ADR Not dangerous goods.

15. REGULATORY INFORMATION

United States (TSCA) All ingredients are on the inventory or exempt from listing.

Canada (DSL / NDSL) All ingredients are on the inventory or exempt from listing.

SARA 302 Components

Sulfuric Acid (Stop Solution): CAS 7664-93-9

SARA 313 Components

Sulfuric Acid (Stop Solution): Concentration <5%

SARA 311/312 Hazards Sulfuric Acid (Stop Solution): Reactive, Acute Health Hazard

California Prop. 65 Components

Sulfuric Acid (Stop Solution): WARNING: This product contains a chemical

known to the State of California to cause cancer.

16. OTHER INFORMATION

The above information was obtained from sources available at the time of revision and believed to be accurate and reliable. The information included is

**Disclaimer** not intended to be all inclusive and should only be used as a guide.

RayBiotech shall not be held liable for any damage resulting from use,

handling, or contact with the above product.

Last Revised April 15, 2016

This product is for research use only.
