

1.	IDENTIFICATION	
	Product Identification	
	Product Name	Mouse Th1/Th2/Th17 Array Q1
	Catalog Number	QAM-TH17-1
	Usage	
	This product is furnished for LABORATORY	RESEARCH USE ONLY. Not for diagnostic or therapeutic use.
	Supplier Identification	
	Company	RayBiotech, Inc.
		3607 Parkway Lane, Suite 100 Norcross, GA 30092
		USA
	Telephone	1-888-494-8555 (Toll Free); 770-729-2992
	Fax	770-206-2393
	Website	www.RayBiotech.com
	Email	info@raybiotech.com
	Emergency Telephone Number	
	Emergency Phone #	1-888-494-8555

2. HAZARDS IDENTIFICATION

Hazardous Ingredients

There are no hazardous components in this product.

OSHA/HCS status

This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

GHS Label Elements	
Hazard Pictograms	Not applicable.
Signal Word/s	Not applicable.
Hazard Statements	Not applicable.
	IF SWALLOWED: Call a POISON CENTER or doctor/ physician if you feel unwell. EYE CONTACT: Rinse cautiously with water for several minutes. Remove
Response	contact lenses, if present and easy to do. Continue rinsing. SKIN CONTACT: Wash with clean water or soap and water. INHALATION: Move to an outside area and breath fresh air. Clear the noseby blowing.
Storage	Not applicable.
Disposal	Not applicable.
Hazards not otherwise clas	ssified
N1 1	

None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Description of Necessary First Aid Measures

Eye Contact	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.
Skin Contact	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing and clean shoes before reuse.
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Ingestion	Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Over-Exposure Signs/Symptoms

No specific data.

Notes to Physician

Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific Treatments

No specific treatment

Protection of First-Aiders

No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

5. FIRE FIGHTING MEASURES

Extinguishing Media	Use an extiguishing agent suitable for the surrounding fire, such as water spray, carbon dioxide, dry chemical power or appropriate foam. Prevent contact with skin and eyes.
Chemical Hazards from Fire	In a fire or if heated, a pressure increase will occur and the component containers may burst.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

For Non- Emergency Personnel	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For Emergency Responders	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For Non-Emergency Personnel" above.
Environmental Precautions	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Protective Equipment	Wear respirator, chemical safety goggles, rubber boots and rubber gloves.

Methods and Materials for Containment and Cleaning Up

Small Spill	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water- soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large Spill	Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non- combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

7. STORAGE AND HANDLING

Storage

Store the entire kit frozen at -20°C upon arrival.

Handling

Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Avoid contact with eyes, skin, and clothing. Avoid ingestion and inhalation.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Permissible Exposure Limits (PELs)

This product does not contain any hazardous materials with occupational exposure limits established by theregion specific regulatory bodies.

Appropriate Engineering Controls

Showers Eyewash stations Ventilation systems

Protective Equipment

Wear suitable protective clothing, including gloves, safety glasses, dust mask, and a laboratory coat.

Special Precautions

Not for human or drug use. Not for household use.

9. PHYSICAL AND CHEMICAL PROPERTIES

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

10.	STABILITY AND REACTIVITY	
	Chemical Stability	Stable under normal handling procedures.
	Hazardous Reactions	Under normal conditions of storage and use, hazardous reactions will not occur.

11. TOXICOLOGICAL INFORMATION

This product does not contain hazardous components.

	Carcinogenicity	Not listed as a carcinogen by ACGIH, IARC, NTP, or CA Prop 65;
	Sensitization	Not Available
	Mutagenicity	Not available
	Reproductive Toxicity	Not Available
	Specific target organ toxicity (single exposure)	Not available
	Specific target organ toxicity (repeated exposure)	Not available
	Aspiration hazard	Not available
	Likely routes of exposure	Routes of entry anticipated: Oral, Dermal, Inhalation.
	Potential acute health effects	
	Eye contact	No known significant effects or critical hazards.
	Inhalation	No known significant effects or critical hazards.
	Ingestion	
	Skin Contact	No known significant effects or critical hazards.
12.	ECOLOGICAL INFORMATION	
	Ecotoxicity	No data available
	Persistence and degradability	No data available
	Bioaccumulation/accumulation	No data available
	Mobility in environmental media	No data available
	Other hazardous effects	May be harmful to the environment, particularly aquatic organisms.
13.	DISPOSAL CONSIDERATIONS	
	Disposal methods	Disposal should be in accordance with applicable national, state, and local laws and regulations. Local regulations may be more stringent than national or state requirements. Verify local and state regulations before discharging into public sewers or landfills. Do not dump into any body of water. Contact a licensed professional waste disposal service for appropriate methods of disposal.
14.	TRANSPORT INFORMATION	
	DOT	Not dangerous goods.
	ΙΑΤΑ	Not dangerous goods.
	ADR	Not dangerous goods.
15.	REGULATORY INFORMATION	
	United States (TSCA)	All ingredients are on the inventory or exempt from listing.
	Canada (DSL / NDSL)	All ingredients are on the inventory or exempt from listing.

SARA 302 Components	No known hazards.
SARA 313 Components	No known hazards.
SARA 311/312 Hazards	No known hazards.
California Prop. 65 Components	This product does not contain any Proposition 65 chemicals.
